## Triggers to add to our MediaScreens and AudioBoards:

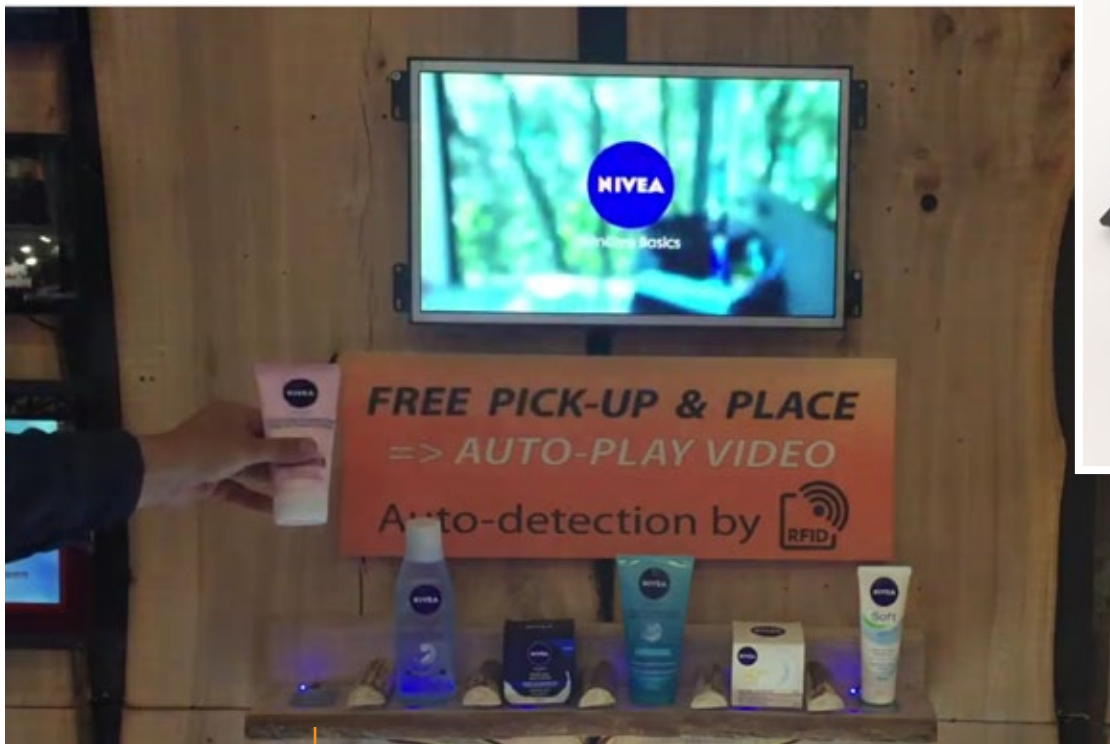

Play|Pause|Forward or Volume Triggers:

- Metal or Plastic PushButtons
  - add LED Lighting & color
  - add Symbol
  - choose your color button
- Capacitive Touch Buttons
- Press and Turn Buttons (Play&Volume)
- Membrane Press Pad
- Motion Detection Sensor
- NFC & RFID readers - RFID Tags
- Light Sensor
- Touchscreen
- Barcode Reader / QR-code Scanner

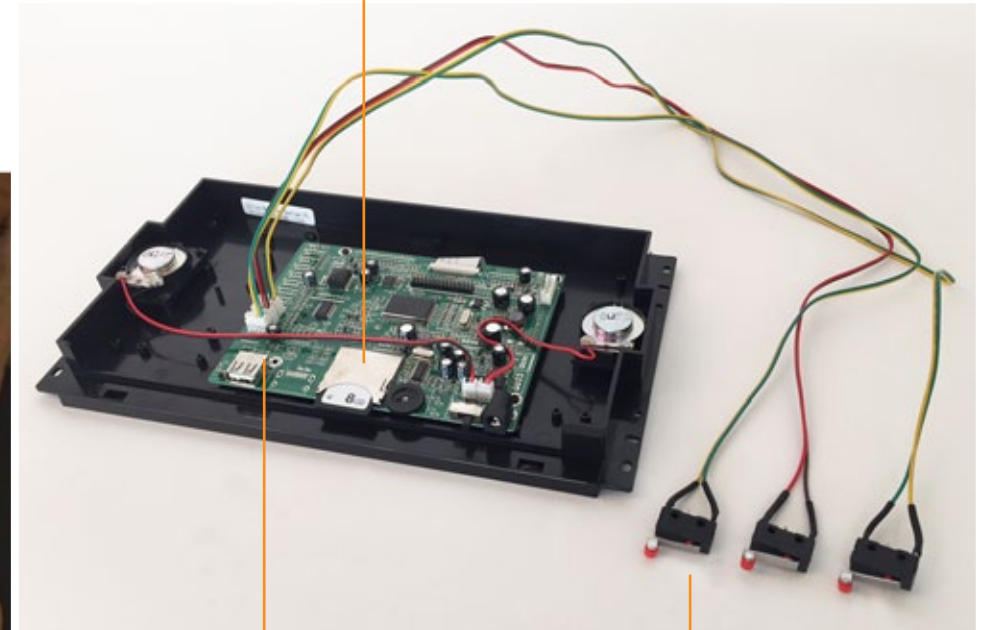

# LIFT AND LEARN

Be creative, let it be more attractive to get the customers into action!

Pickup the product and the corresponding video will play directly.

RFID Sensor detection for:  
- Lift and Play video  
or  
- Place and Play video

No programming needed, just load the content on the SD Card and play

RFID / NFC / Light Sensors and Micro & Magnet Switches

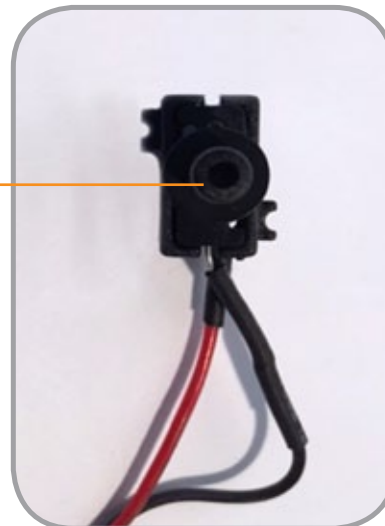

Easy plug-in the sensor into the screen at the backside of the Board

AND THE LEARNING SENSORS ARE...

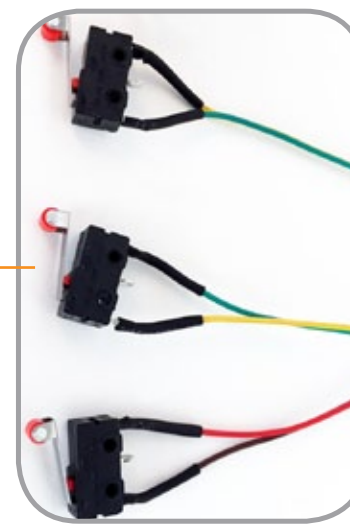

**RFID / NFC sensor**

Built-in RFID Sensor Board. Lift or scan a RFID Tag and the corresponding video will play. This Board can be attached under 4mm plastic or glass!

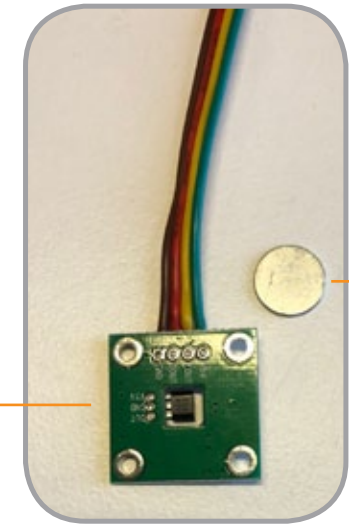

**Light Sensor**

When light is detected, the corresponding video will play.

**Micro Switch Sensor**

When the trigger is released the corresponding product video will play.

**Magnet Switch Sensor**

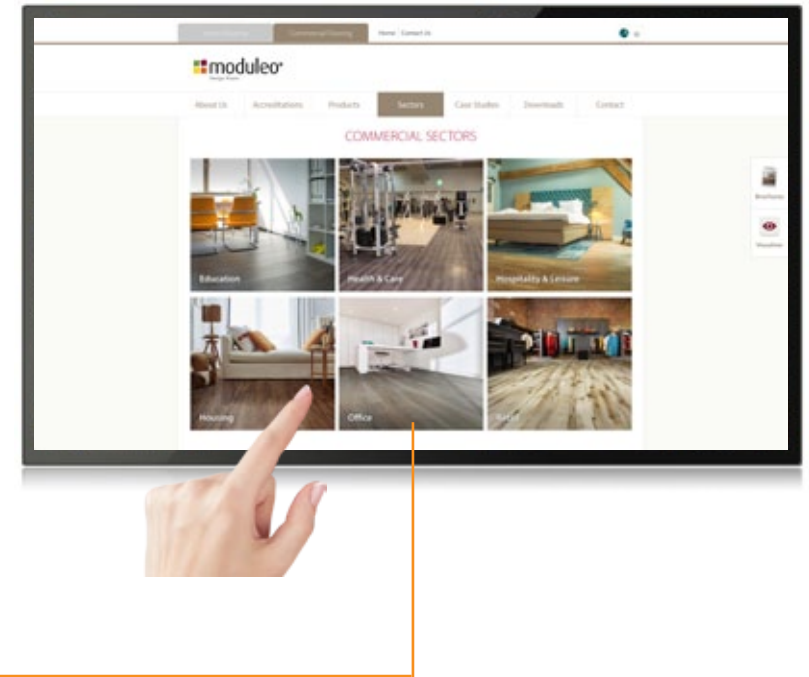

Stick a magnet under the product

When the magnet is detected or released, the corresponding video will play.

# ANDROID DISPLAYS

## ANDROID TOUCHSCREENS

Online self-service and getting the latest information is common nowadays.  
These screens create up-selling and give opportunities to convince the client, instore & online!

Display made by Alrec Instore

Online Digital Signage systems installation is  
possible on these Android Screens.

# SQUARE LCD

## LIFE & ART

Stylish Display, with a thin bezel. Create your own videowall!

These Square Displays have optional internal Android with Wi-Fi and LAN, to share your content wherever you are...

# # SOCIAL WALL

# VIDEO WALL

# SQUARE LCD

## Features:

Monitor model with: HDMI VGA DVI + 4x LAN Daisy Chain

Android model with: LAN or Wi-Fi connection

Resolution: 960\*960 pixels

Panel: LCD

Brightness: 450 cd/m<sup>2</sup>

# SHELF WALL

## JUST PUSH IT...

A battery-operated solution, which is designed especially to use on shelves where no power is around. It fits conveniently into multiple shelving configurations in any retail environment.

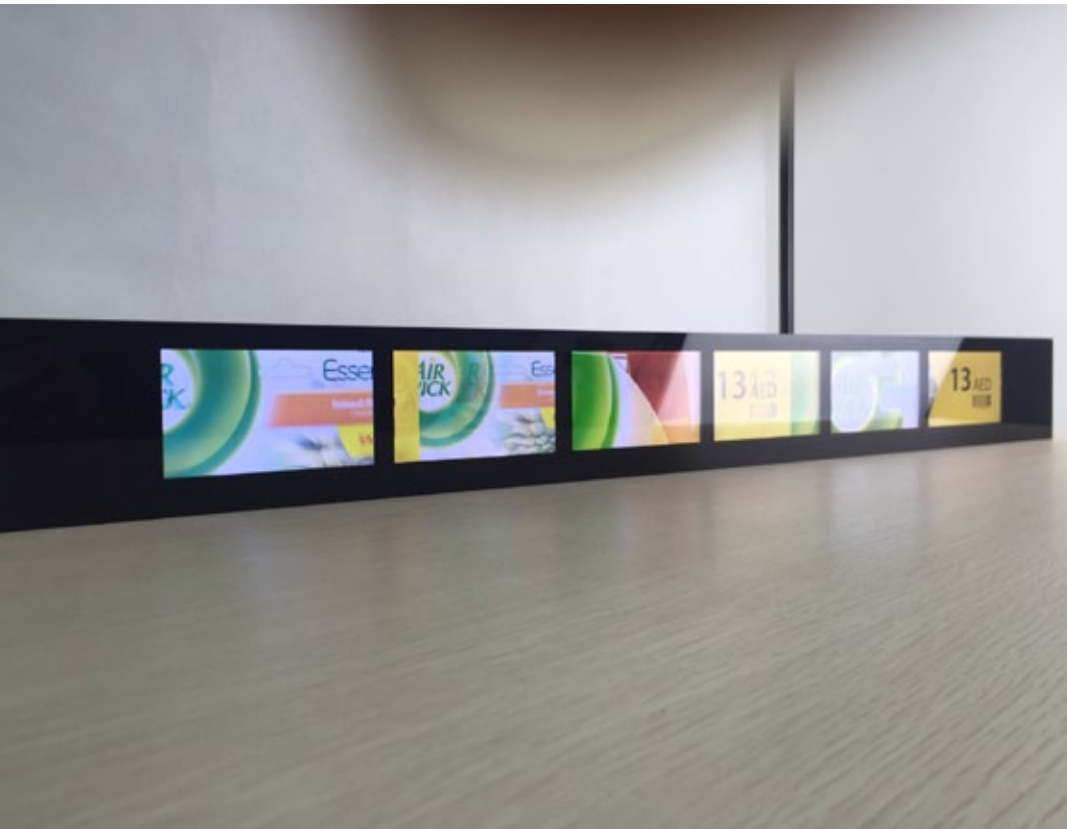

Easy play content & Button activations  
Plug & Play  
Easy programming

Change full color print overlay  
Battery or DC Power Adapter  
ShelfBracket  
ScreenSaver video  
Speaker On-Off

# SHELF WALL

## MAGNET ATTRACTOR

Playing video creates more attention than static printing. Communicate on eye level. Stimulate impulse purchases by showing your product video on eyelevel.

Results in a more quick decision to buy.

3x 4.3"  
4x 4.3"  
6x 4.3"

Play video:

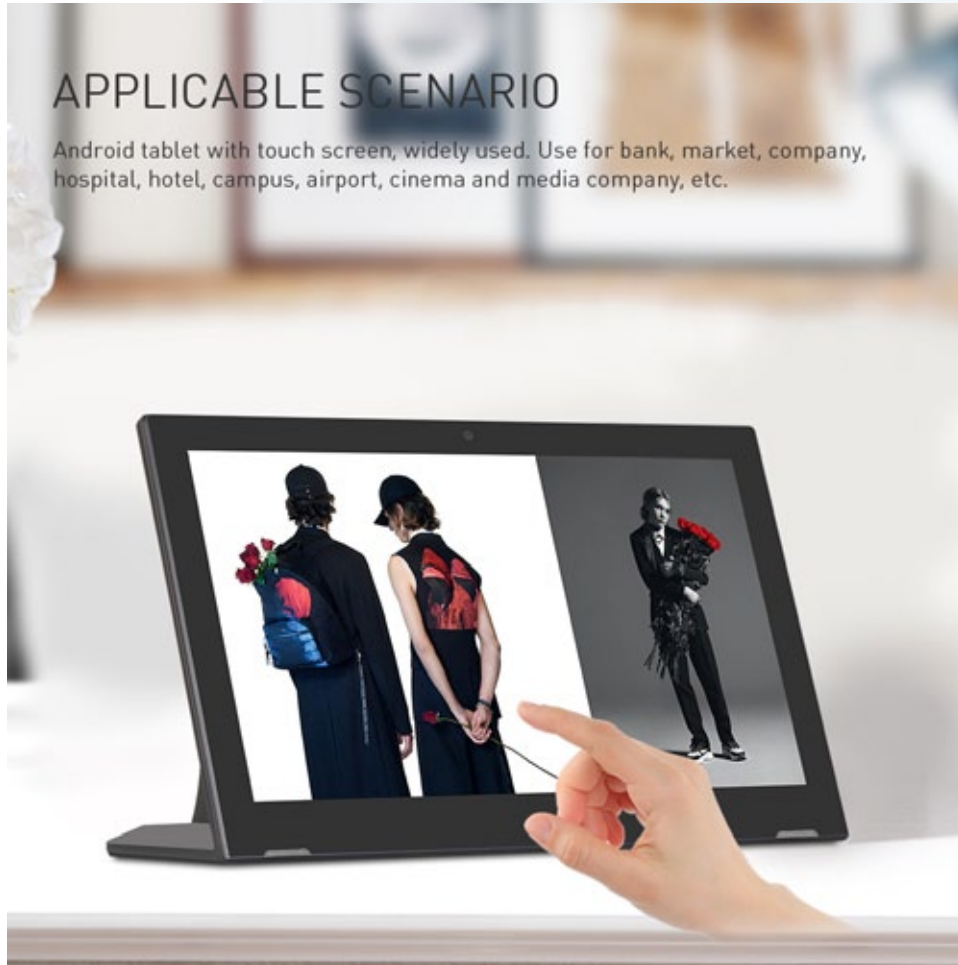

- like a small video wall
- or
- an individual video on each screen

- Internal Memory, plug in USB to copy your content
- Universal Shelf Bracket for hangup at a shelf
- Powered by 12v Power Adapter

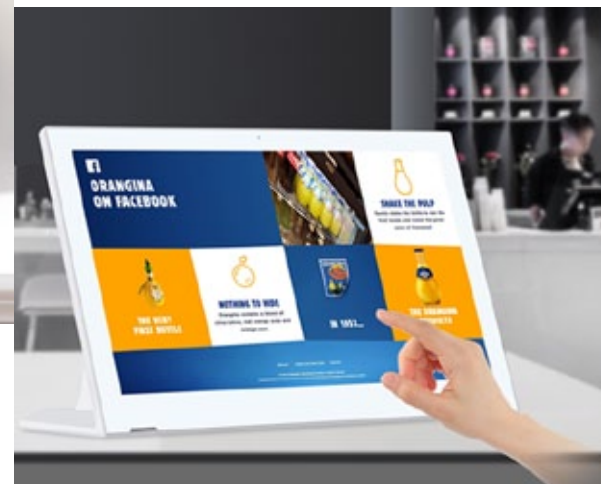

# ON THE COUNTER

## APPLICABLE SCENARIO

Android tablet with touch screen, widely used. Use for bank, market, company, hospital, hotel, campus, airport, cinema and media company, etc.

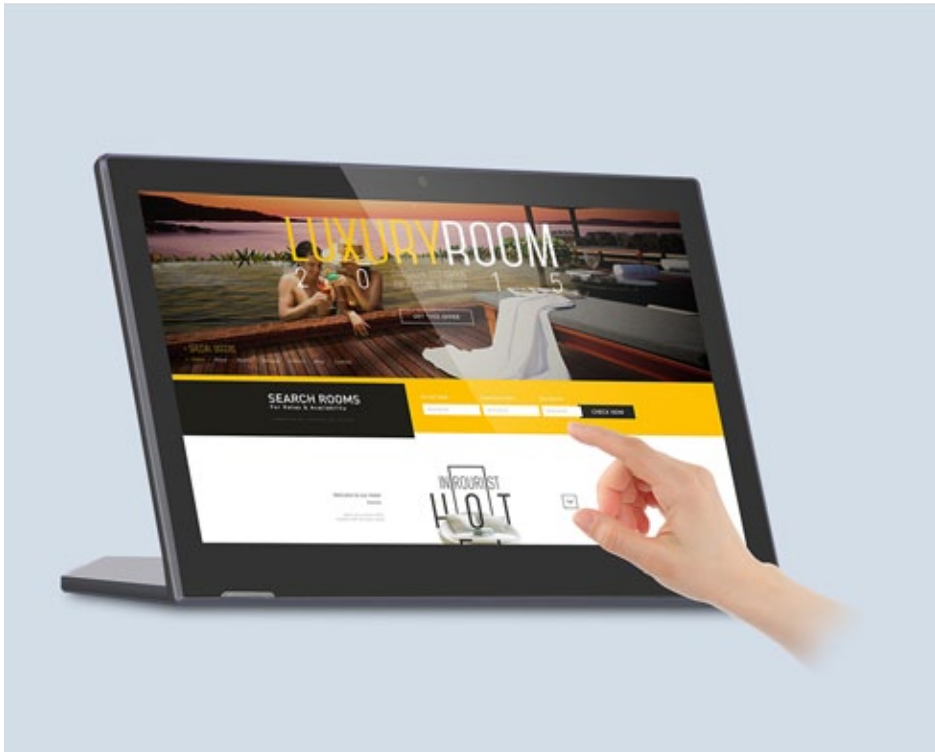

NFC Reader

## INTELLIGENT CAPACITIVE TOUCH

The high sensitive 10-point Capacitive Touch screen is used to match the high frequency self-touch chip, G+G bonding process, high screen hardness, abrasion resistance and higher transmittance.

10.1" / 13.3" / 15.6"  
17.3" / 21.5"

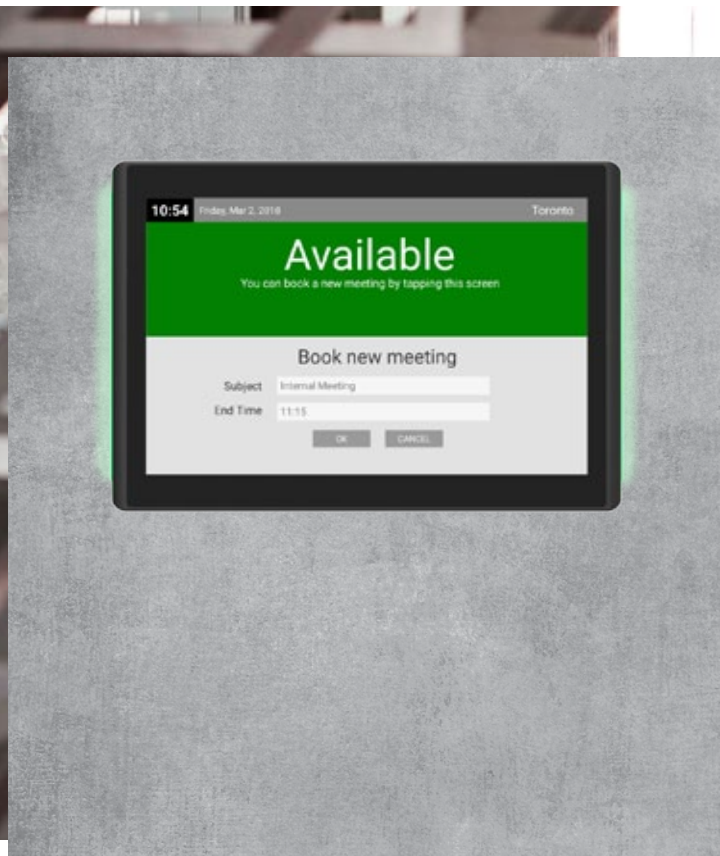

AUTO START & PLAY

# ROOM BOOKING

I NEED SOME SPACE!

Our Meeting Room Displays have a HD IPS panel with Capacitive Touch technology.

Boost up the quality of user experience through crisps clear graphic, wide viewing angle and 10-points Multi TouchScreen.

# ROOM BOOKING

## MAIN FEATURES:

- LED Bars at the sides of the screen indicate the Meeting Room is occupied or open.
- Changing colors: RED / BLUE / GREEN
- AutoStart by plug in Power Adapter
- 10.1" LCD IPS panel 1280x800 pixels
- 10-points Capacitive Touchscreen
- Internal HD videoplayer 1080P
- Rooted Android 5.1 / RK3288
- Internet access by Wi-Fi (opt. LAN / 3G)
- Black-White Housing or Black-Black Housing
- Power Adapter or PoE for powering the screen

10.1" / 13.3" / 15.6"

AUTO START & PLAY

Meeting Room Screen for reservation occupation status + Digital Signage features (logos/ videos on screen), indicated on screen and Led Bar coloring.

Book reservation online via Google Calendar and Outlook system.

Room Booking Software is not standard included on these screens!

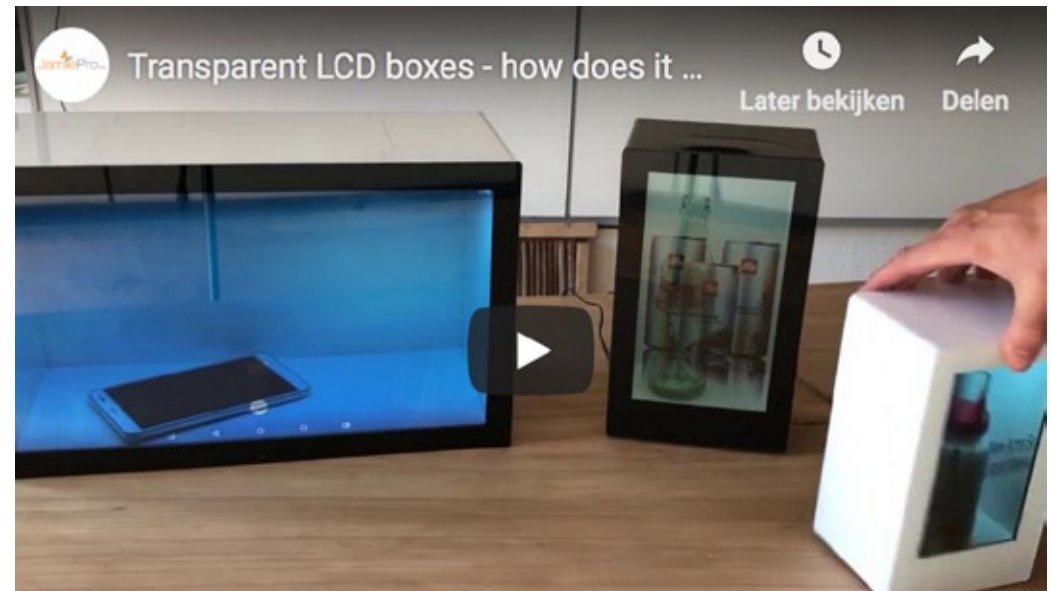

We can provide an online CMS system to create your layouts with logo's pictures and videos for attraction and advertising.

# TRANSPARENT LCD

## HOW IT WORKS

Place your product in the box and at the frontside will play a video about this product.

You can watch a demonstration video on our website how these transparent boxes work.

# TRANSPARENT LCD

## PRODUCT AS A LEADING ROLE

A video will play in front the product. This will give an extra boost to highlight its benefits and features at a very new level.

Optional with Touchscreen, customers can interact with the leading role!

Power over Ethernet (PoE)  
HDMI IN  
NFC / Printer / BarcodeReader

# SOFTWARE

## USER FRIENDLY

Software to manage your content online on small and large screens, Kiosks and Totems. Easy and simple manageable content, please contact us for advise.

## DIGITAL SIGNAGE SOFTWARE for:

Android  
Windows  
Linux  
SOC

### Do you have your own Software or presentation app?

=> We can pre-install on the Internal Memory for mass production!

#### **KIOWARE**

Software to play your content (f.i. HTML 5) or web-site in Kiosk-Mode (lock-mode) on Android Displays. Autostart after turning on the screen. Screen-saver and other settings possible

#### **iChannel**

Software to play your content on Android Screens and Players. Online CMS system to manage your Screens and Content remotely. Different user levels available. See next page more.

#### **S-bEND**

Software to play your content on Android Screens and Players. Online CMS system to manage your Screens and Content remotely. Schedule your created templates very easily.

# SIGNAGE APPS

## How does it work?

### 1. VIA WEB OR APP

Simply manage your screen network and touch points via WEB, tablet or smart phone

### 2. IN THE CLOUD OR LAN

Connect your screens on local or public cloud services via the STiNO cloud or hosted at your premises

### 3. ANY SCREEN TYPE

Manage interactive kiosk or non-interactive large format displays, video walls, or small format displays

The TouchPromoter Software is a stand-alone kiosk- and interactive touch presentation software to create interactive presentations for Multi-Touch displays within a few minutes. A number of different menus and apps such as Swipe, Book Flip, Puzzle, Google Maps, Browser and others can be easily configured with the touchPromoter Configurator tool.

The iChannel platform is STINO's WEB-based Content Management System for Digital Signage Applications. It is available as Cloud-based SaaS license or as an on-premises perpetual license. iChannel supports Windows and Android based players. Extensions are available for Kiosk and interactive as well as support for ePromoter as a simplified management tool from smartphone or tablet.

iChannel supports also:

- Room Booking
- Queuing Software (Qnet)
- Android Presentation Add On:
  - RFID and Distance Sensors
  - LED Light Strips
  - Metal Press Button
  - Pickup detections
  - and more.....

The ePromoter management App allows you to easily manage your screen promotions without the need for a dedicated server. It is built for easy management of content play-out of images, videos and HTML-templates in local networks from Android tablet or smartphone. ePromoter can manage Android or Windows based player.

## HIGH EXPOSURE

Flexible in size and structure. It will give a boost instore or outdoor. High exposure for your announcements.

High attention value to (potential) customers.

# LED WALL

## Create setups like:

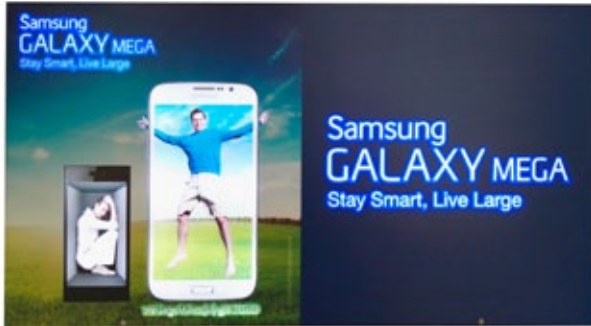

VideoWall | Info News Wall | Billboard

Several kinds of LED types available  
for short distance or long distance view

High definition and stable quality  
Automatic Brightness adjustment

Light / Thin housings / Front access  
Convenient Installation, with quick connectors

Comes with NovaStar Software content player

### Animated LED

LED Light turns on-off at certain areas  
custom shapes possible

### LED Board with Engravement

Can be produced in any size and color

### Light Panel with Full Color Backlit Print

Can produced on customized size base.

### LED Strips (customized sizes and colors)

LED Strips connected to LCD MediaScreen.  
Light up features via f.i. activation button.

# LED Board

## Our hardware integrated in clients “Alexa & Domotics” Display

Software customized for this project:

- Run video in loop or press the button to start video
- During video certain LED Boards will light up to highlight the product on the display.
- The Speakers will tell the story as a **voice-over**.

**15,6inch MediaScreen  
integrated**

**Pre-defined LED Lights will  
pop up during the video**

**PushButton to begin the  
video from the start**

a demonstration wall with Vifa speakers in HAVONED's showroom (the Netherlands)

Press a button to play a soundtrack on one of the speakers

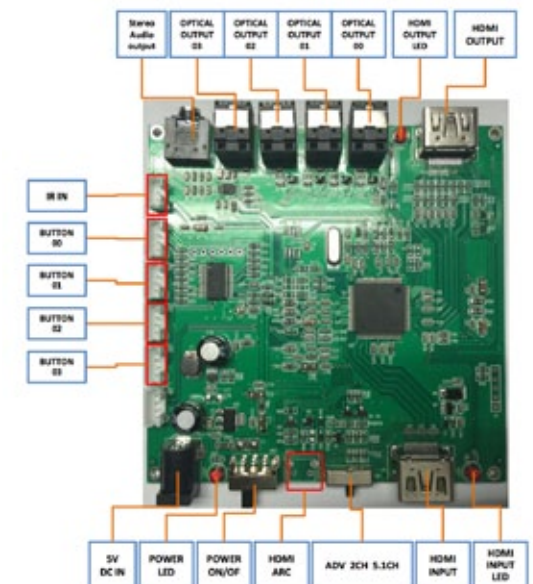

Volume up and down

## COMPARE INSTORE

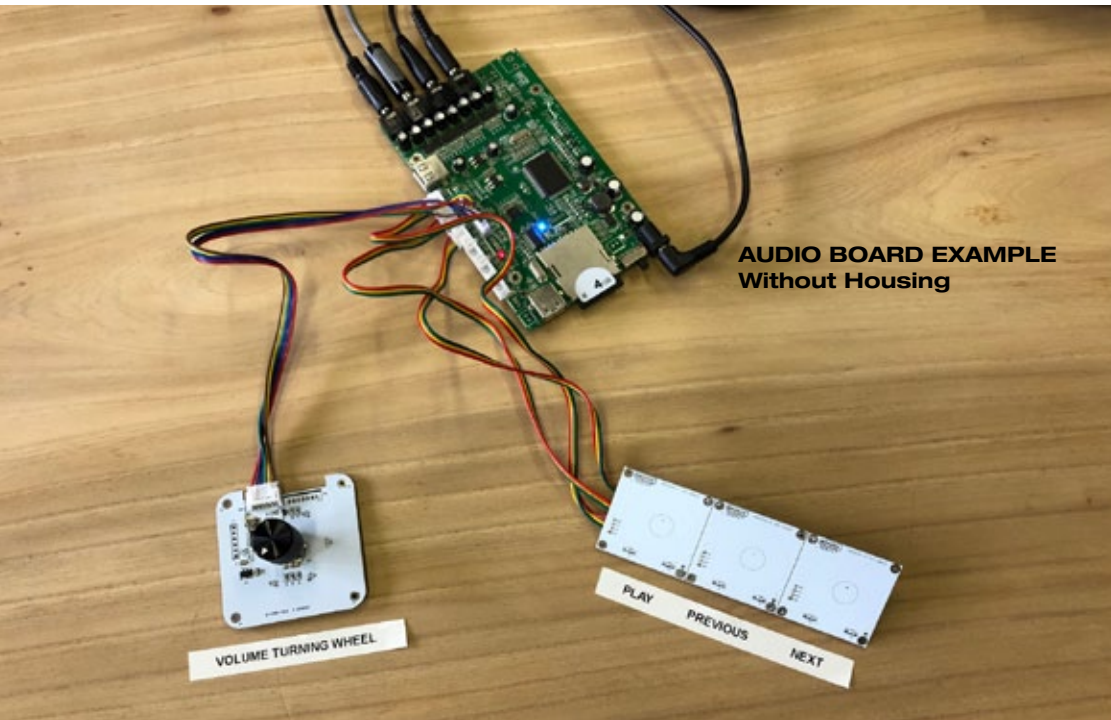

Buy the one which will suit you the most!

This AudioBoard has multi in- and outputs. You can connect multi headphones and/or multi speakers. Press a button and a sound track will play on one or more headphones and or speakers. Add also LED Lights, input for mobile phone.

We develop the Software functions upon your needs!

# AUDIO BOARDS

## Play HQ sound files; WAV/FLAC/MP3

Connect up to **6x** Audio Devices by:

- Audio Jacks 3.5mm Outputs
- Digital Outputs (SPDIF)
- Coax Outputs

Automatic: Start - Play

Add External Buttons to select audio track & volume

Easy programming, plug and play.

Custom your setup requirements / play rules.

## Plug in mobile phone

Input connection for personal device, f.i. customers can listen to their favourite music on their own mobile phone.

### ADD ON:

Power Board for 5V/12V/18V Output

Power Board with multiple USB Ports 5V out

Connections for LED Lighting

# CUSTOM BRACKETS

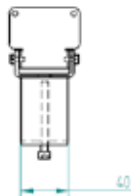

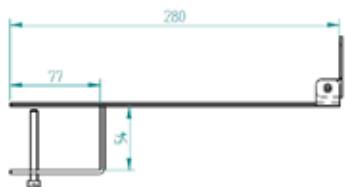

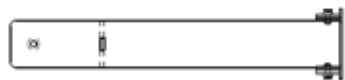

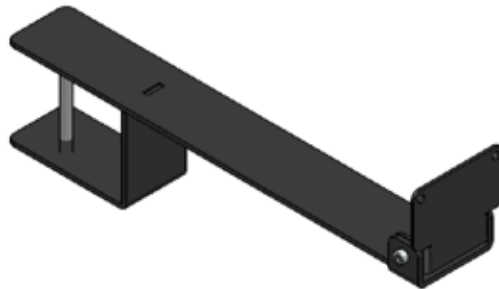

## AT YOUR SERVICE

Upon your requirements we can produce different kind of hangup systems and brackets.

**Custom Bracket:**  
Design your bracket, tailor made

From design into a real product

### Mounts for:

- Wall
- Ceiling
- Counter
- Shelf
- DIY perfo walls
- And many more...

# ADDITIONALS

## PLUG IT IN

More than 17.000 products to support LCD displays and other devices. Providing you with brands such as, König and Sweex. But also top brands, such as Philips, Sandisk and Energizer.

### Wide range of additional electronics & supporting items:

- Printers
- HDMI Cables
- Power Supplies
- USB Extension Cables
- LAN Cables
- SD Cards
- USB Sticks
- Batteries
- LED Lighting
- HDMI Splitters

We are...

...importer of various electronics, specialized in Digital LCD screens, which are available for various applications. For example, an instruction video to support or highlight a product or Touchscreen devices to provide the customer product information to support them in their product selection and to help them to make the right decision.

Frequently, we add new innovative products to our assortment, to offer a wider package for all kind of Digital Signage Solutions. A variety of digital presentation solutions to inform and inspire our clients and consumers.

In a world of digitalization it is important to find the right products for our customers. Quality, flexibility and reliability are in this process very important. We visit our suppliers and their factories to get proper alignment between market demand and what the possibilities are at manufacturing level.

We often make in consult with the manufacturer certain changes to a particular product, giving the customer a great help in the further course of his or her project.

The customer should not only feel that we do our utmost, but that we also deliver as agreed. We put our customers at the center of what we do. We respond and meet our customers expectations by providing a high level of service and innovative technologies.

We hope we may serve you this time and a also next time.

Let's do it! We are sure we'll not dissappoint you :-)
